PROFILE

Software Engineer with 1+ year of experience in **Python and Django**, currently working on **VKYC (Video Know Your Customer) solutions for banking clients**. Experienced in developing and maintaining backend features, REST API integrations, customer onboarding workflows, database operations, Docker-based environments, and production support. Previously gained full-stack development experience with **Django REST Framework, React, PostgreSQL, JWT authentication, Git, AWS, and Vercel** during an internship. Holds a **Bachelor of Computer Applications (BCA)** and is focused on building scalable, reliable, and maintainable software solutions.

PROFESSIONAL EXPERIENCE

Software Engineer 05/2026 – Present | Kochi

PixDynamincs

- Worked on **VKYC (Video Know Your Customer)** solutions for banking clients, supporting digital customer onboarding workflows.
- Developed and maintained backend features using **Python and Django**, including business logic and REST API integrations.
- Worked on customer onboarding, eligibility, verification, and other banking-related application workflows.
- Handled **database operations, Docker-based development environments, bug fixes, and production support**.
- Collaborated with the development team to implement enhancements, resolve issues, and deliver application features based on business requirements.

Python Full Stack Developer Intern, 05/2025 – 03/2026

Bridgeon

- Developed a mini e-commerce platform using **React**, with 15+ reusable components for a scalable frontend.
- Built **REST APIs using Django REST Framework** with JWT authentication, role-based access control, and PostgreSQL.
- Integrated frontend and backend components and deployed applications using **AWS and Vercel**.
- Worked in **Agile development** environments and used **Git/GitHub** for version control and collaboration.

SKILLS

Frontend Development
React.js, Redux, Tailwind CSS, Bootstrap, Axios, React Router DOM, Component-Based Architecture, Responsive Design

Backend Development
Django, Django REST Framework (DRF), FastAPI, REST API Development, API Integration, ORM, JWT Authentication, Business Logic

Databases
SQL, MySQL, PostgreSQL,Oracle

Tools
Git, GitHub, PgAdmin, MySQL Workbench, VS Code

Deployment
Docker, AWS, Kubernetes,Vercel

Version Control
Git, GitHub

Software Engineering
Debugging, Database Operations, Production Support, API Testing, Agile/Scrum

AI & Emerging Technologies
Generative AI, Large Language Models (LLMs), RAG

PROJECTS

VKYC – Video Know Your Customer 05/2026 – Present
Banking Customer Onboarding Platform | Python, Django,
REST APIs, Oracle, Docker 2026 – Present

- Contributed to a **VKYC platform for banking clients**, supporting digital customer onboarding and verification workflows.
- Developed and maintained backend features using **Python and Django**, including REST API integrations and business logic.
- Worked on customer eligibility, onboarding workflows, data validation, and banking-specific application requirements.
- Investigated and resolved backend issues, database-related problems, and workflow bugs across development and production environments

EduFlow
AI-Powered Learning Management System, Django, React.js, FastAPI, PostgreSQL

- Designed and developed a multi-role **AI-powered LMS** with separate workflows for Admins, Instructors, and Students.
- Built an **AI microservice using FastAPI** for course-specific chatbot assistance and automated quiz generation.
- Developed REST APIs using **Django REST Framework** and integrated them with a responsive React frontend.
- Implemented AI-assisted learning features with a focus on course-specific content and scalable backend architecture.

Forever
E-Commerce Web Application , React, Redux, Django REST Framework

• Developed authentication, product management, payment, and order processing workflows using Django REST Framework and PostgreSQL, ensuring secure and efficient backend operations..
• Built interactive, mobile-friendly user interfaces with React, Tailwind CSS, and JavaScript, integrating RESTful APIs for seamless communication with the Django backend.

EDUCATION

Bachelor of Computer Applications(BCA) 06/2022 – 03/2025 | Calicut
PeeKay cics Arts And Science College Mathara
Affiliated By Calicut University

Diploma In Computer Application (DCA) Calicut
MMVHSS Parappil
